

For Professional use only

MARLDON MXC730 FLOOR CLEANER

PRODUCT DESCRIPTION

Product characteristics:

MARLDON FLOOR CLEANER is specially formulated for cleaning all types of lacquered wooden surfaces. Includes a fresh citrus fragrance which cleans, disinfects and deodourises in one simple operation. MARLDON FLOOR CLEANER benefits from an anti-bacterial agent which when used in its concentrated form is effective against MRSA, Listeria, Monocytogenes, Listeria Innocua, Listeria Welshimeri, Pseudomonas aeruginosa, Escherichia coll, Staphylococcus aureus and Enterococcus hirae.

Colour:

MXC 730 Green tint.

Fields of application:

Specially formulated for the cleaning of lacquered wooden flooring with the exception of unsealed wood, unsealed cork, oiled or magnesite composition floors.

Application procedure:

Apply MARLDON FLOOR CLEANER by spray, direct to the wooden surface in its concentrated form and wipe floor with a Marldon applicator or similar mop. For large areas and frequent use, MARLDON FLOOR CLEANER can be diluted 25ml/5lt of clean water or for very dirty floors 50ml/5lt of clean water. If too moist, remove excessive water with a dry cloth. Weekly cleaned wood floors occasionally freshen up with MARLDON FLOOR REVIVER MXC 740 (approx every 2-3 months). Floors will be slippery when wet.

Physical properties:

Viscosity: Fluid (liquid)

Odour: Fresh citrus fragrance

Storage properties:

Practically unlimited if stored under frost free conditions. Store in a well ventilated area.

Coverage capacity:

Concentrated - 250m² / Litre

Diluted – 25ml / 5 litres of clean water

Product sizes:

750ml spray / 5 litre.

Health and safety advice:

Keep out of reach of children. Do not bring into contact with victuals and animal food. Do not fill into containers normally used for food and drink. In case of contact with eyes rinse immediately with plenty of water and consult a Doctor.

Refer to health and safety sheet for further information.
